

3.1.2 Devices FMPC

Programmable controller for safety and standard applications for **not** CE purposes.
Safety classification: Control Reliable.

FMPC Master		
Type	FMPC Master Eco	FMPC Master Basic
Number of slaves	0	4
Digital inputs	12	12
Encoder or pulse counter (alternative input mode)	0	0
Digital outputs	5	5
Digital safety outputs	4	4
Safety output fast switch off	No	No
Switch-off delay of the safety outputs in case of a control error	No	Yes

FMPC Slave	
Type	FMPC Slave Basic
Digital inputs	12
Encoder or pulse counter (alternative input mode)	0
Digital outputs	5
Digital safety outputs	4
Safety output fast switch off	No
Switch-off delay of the safety outputs in case of a control error	Yes
Required master	FMPC Master Basic
