

EXM-DMM8DRT

Input Points	4points (sink/source type-dual use)
Rated Input Voltage	DC24V
Rated Input Current	7.3mA / DC24V
Input Impedance	3.3k Ω
Isolation Method	"Between input terminals and internal circuit : photocoupler isolated Between input terminals : not isolated"
Input Delay Time	OFF-ON : 4ms ON-OFF : 4ms
Output Points	4-point relay (a-connect)
Common Design	4points / 1common
Maximum Load Current	Per Channel : 2A or less / Per Common : 7A or less
Min. Open / Close Load	0.1mA / DC 0.1V
Electrical Life	"100 (rated resistive load 1 800 operations / h)"
Mechanical Life	"20 million operations or more (no load 18 000 operations / h)"
Output Delay Time	ON : 6ms or less / OFF : 10ms or less
External Connection	11-pin terminal connector
Status LED	LED is lighting when input is ON
Power Consumption	0.65W or less
Mass	95g (0.21lb)
