

26 KEY “HANDHELD” KEYBOARD

with 38mm laser optical trackball or hall effect thumbstick

Sealing IP65, PS/2 or USB output

These 26 key “Handheld” membrane keyboards have an integrated 38mm laser optical trackball or an integrated Hall effect joystick which we call a “thumbstick” (this name describes better its functionality). Both versions are sealed IP65 and housed in a very stylish and robust ABS housing. The keyboards have numeric and function keys; the control keys are available via “Fn” key mapping. Ideal for applications requiring only a limited number of key functions with fast and comfortable key access and a precise cursor control.

- 38 mm laser optical trackball
- Removable ball
- Cleaning facility

KBMT26S1
Dim : 105 x 210 x 60 mm
Weight : 0,4 kg

- Hall effect “Thumbstick”
- Cursor control functionality
- Rubber boot sealing
- Spring return

KBTS26S1
Dim : 105 x 210 x 70 mm
Weight : 0,4 kg

• CONNECTIVITY

The PS/2 keyboards are supplied with one 1,6 m long shielded splitted cable ended by two PS/2 plugs. The USB versions are supplied with one 1,6m long shielded straight cable ended by a USB type A plug. Use the drivers standardly available in your operating system.

** Due to the increasing differences of PS/2 mouse port specifications of the various PC manufacturers, we do recommend that this unit should be tested on the final PC configuration and operating system prior to installing it in series.*
